

INTERNAL TRAINER CERTIFICATION PROGRAM

Development to Improvement...

Sharing experience, reinforce establishment of rapport and provides networking opportunities, developing others as part of leadership and technical experts expectations and making Wipro a learning organization were the goals that have made this certification so important and real.

As part Wipro strategy, development plan of each employee is a priority. Considering the actual scenario, accelerate the development of key competencies, capabilities and awareness throughout the organization by utilizing internal talent (subject matters expert) to teach key topics in the organization is a simply way to achieve the success.

The photos aside represent a part of the of the pioneers internal trainers. We take this opportunity to congratulate all of you for this great achievement!

"It was with great pleasure that B-Training Consulting spurred the Internal Trainer Certification Program (b-learning mode), in WIPRO. Highlight the involvement and dedication of the entire group on sessions, because it showed a remarkable evolution in teaching behaviors worthy of professional trainers.

All students finished the course successfully and they are now able to take over functions-while trainers and animators as trainers-consultants.

We would like to let our Congratulations to all group members!"

With you, we expect **Authenticity** (relevant business scenarios to practice with strong linkage between theory and Wipro relevance); **Visibility** (get to know/close to the management and topic specialist) and **Availability** (like a trainer even after the course).

Thank you for giving us the main piece of this organizational puzzle!
